

You're invited to the opening of **PIXELPOPS!**
- *Performance from Far Away*

on **Friday October 28, 2011 from 7pm until midnight.** (See the program on next page.)

This years curator of **PIXELPOPS!** is Paris based **Philip Tonda** from **Transient Projects To People**. The theme of this years exhibit is "Performance From Far Away": More specifically Performance art made distinctly for the video camera.

The exhibition is arranged in cooperation with **Nouvel Organon**, 20 Rue Muller, 75018 Paris.

PIXELPOPS! is an ongoing, traveling series of annual digital art exhibits. The series changes with each year's new locale and the creativity each new curator brings. Year after year, the online catalogue continues to grow and provide new resonances and global connections in artistic interpretation.

Photo: From the video "Déjà Vu" by Filippo Berta
